MCS6 - *Media Control Station*

MCS6™ is an updated version of our popular MCS3 Media Control Station with a compact enclosure style.

The familiar button layout and Jog/Shuttle is identical to the MCS3.

It features professional transport buttons for Record, Play, Stop, Fast Forward and Rewind. It has 18 physical buttons for a variety of editing functions and the V/Stick Navigation Control.

A precision, hall effect jog wheel with a concentric, optically encoded shuttle ring lets you control audio or video effortlessly and with frame accuracy.

Available Models (Specify When Ordering)

MCS6 USB w/ Software for Mac Only
MCS6 RS-422/9-Pin for DVR/VTR Control

Direct Support for MCS6 USB from wTVision, a leading company in sports statistics and real-time graphics.

"The addition of JKL shuttle control, a speed slider, key command sequences, and multiple keysets, make the MCS6 the controller of choice for Mac editing professionals."

MCS6 USB Universal Software for Mac

MCS6

MCS6 USB Version

Controls All Mac Applications

MCS6 USB lets you use and customize supplied keysets for advanced control of applications including Final Cut Pro X, iMovie, Premiere Pro, Pro Tools, Nuendo, Media Composer and others. MCS6 works with any Mac software program.

JLCooper controllers let you work faster by providing the tactile elegance that's missing from "mouse-based" user interfaces. Professionals can depend on JLCooper control products to provide reliable service that far outlasts plastic alternatives.

Developers can use our USB drivers for Mac and Windows to add custom direct control to your applications.

MCS6 RS-422 Version

Universal 9-Pin/RS-422 Remote

MCS6 RS-422 makes operation of pro video recorders fast and easy. It features our custom, aluminum, hall effect Jog Wheel with optically–encoded Shuttle ring, for years of trouble free use.

There's finally an alternative to large, costly and cumbersome remotes that consume valuable desktop real estate.

MCS6 is compatible with most professional recorders including AJA, Blackmagic Design, Datvideo, BVW, UVW, DSR, DVW, HVR, DVCAM and other 9-pin equipped VTRs, DDRs and servers from Sony, Panasonic, FFV, Grass Valley and others.

Includes captive 3m cable and power supply.
