JLC Unveils MCS2 USB
A New USB Version of the Compact Controller

NAB - Las Vegas, NV (April 15, 2007) – JLCooer Electronics announces the debut of MCS USB. This new controller provides a convenient USB connection for JLCooer's entry level controller.

Media Control Station 2 is the ultimate compact remote. MCS2 USB features large professional transport buttons a precision, optically encoded jog wheel and jog/shuttle control button. Shift and Option modifier keys let the MCS2 send more than 20 different control messages. A custom precision optically encoded jog/shuttle wheel, equipped to handle both jog and shuttle functions, lets you effortlessly edit and perfect your project.

The USB versions includes software for OSX and Windows and it can be used with any editing software program.

JLCooper Electronics is a twenty-six-year-old company that designs and manufactures a complete line of control, synchronization, interfacing and automation products. Thousands of leading companies in audio and video production, television and radio broadcast, animation, sound reinforcement, lighting, aerospace, education, scientific research, medical, recording artists and others rely on JLCooer products every day.

JLCooper products are sold through factory representatives, distributors and dealers worldwide.
